RFID silicone laundry tag

Item: AG5512

Product Application：

This tag is designed for washing industry customized products. It is composed of silicone material , and a small chip inside .It can be suitable for various washing environment and all kinds of goods management industry. Save the manpower cost, easy product tracking, quality management, import and material control, make the enterprise production and process management optimization.

Product Introduction：

- Material：Silicone
- Dimension：55*12*2.5mm
- Weight：2g
- Color：Gray, white, blue or customization
- Production process：Molding with chip
- Surface process：Printing，laser，UID
- Package：400pcs/box ;   Box dimension：230*60*50mm (paper box)

Product Features:

- Working frequency：840～960MHZ
- Standard agreement：ISO 18000-6C,EPC Class1 Gen 2
- Reading distance：5m (8db fixed reader)
- Chip：Alien H3
- Working life：150times
- Working temperature.：-20º～+150º（20minutes）
